SUMMARY

A motivated and detail-oriented BCA graduate with a strong interest in software development and mobile applications. Completed academic projects that apply programming skills to real-world use cases. Eager to contribute to a collaborative IT team and grow as a software professional.

EDUCATION

Bachelor of Computer Application (BCA) 2022 – 2025

Saraf College, Tilak Maharashtra Vidyapeeth

CGPA: 7.63/10 (Final Semester SGPA: 8.10)

HSC 2020 – 2022

Nirmala Memorial Foundation

49.83%

SSC 2020

S.T.S Mission English High School

69.00%

SKILLS

- Programming: C++, Java, Python
- Web development: HTML, CSS, JavaScript
- Database: SQL, MySQL
- Mobile development: Android Studio, XML, Java
- Tools: Git, VS Code, Firebase
- General skills: Cloud computing, Docker, Linux Basics
- Soft skills: Teamwork, Time-Management, Problem Solving
- Core Concepts: Data Handling, Basic ETL
- Business Tools / Systems: SFA (Sales Force Automation), ERP Systems

WORK EXPERIENCE

IT Intern - Kriam Pharma 2026

- Worked with SFA (Sales Force Automation) and ERP systems to manage business data
- Extracted and transformed data from PDF files into structured Excel datasets
- Cleaned and validated data to ensure accuracy and consistency
- Created and managed Doctypes and uploaded structured data into the ERP UAT environment
- Assisted in maintaining and organizing database records and workflows

Project: Sales Analytics Dashboard (Web & Mobile App)

Technologies: Java, Android, JavaScript, HTML, CSS, PHP, MySQL / SSMS

- Developed a web and mobile application to view and track total data.
- Integrated application with SSMS database to retrieve and display structured data.
- Designed a user-friendly interface for data visualization and reporting.
- Enabled monitoring of sales and business metrics through centralized dashboards.
- Improved data accessibility and visibility for business operations.

OTHER

Virtual Internship - Technology Consulting Track

Deloitte

- Completed simulation-based tasks in software development and client solutions.
- Created a proposal and conducted requirement analysis using industry practices.

Virtual Internship - Software Development

Accenture

- Worked on technical tasks in development and planning simulations.
- Gained hands-on experience in mock project workflows and real-world scenarios.

Virtual Internship - Front-End Software Engineering

Skyscanner

- Built a reservation date picker web application using React.js.
- Implemented state management and responsive UI design for an enhanced user experience.

Virtual Internship - Software Engineering

Skyscanner

- Completed a job simulation involving development of a basic web application and backend microservice using Dropwizard
- Built an Android application to display user flight itineraries, integrating data from Backpack.ca

ACADEMIC PROJECTS

Fit-Life: A Fitness & Wellness App

- Designed and developed a health and fitness mobile app using Android Studio and Firebase. The app includes yoga and exercise sections and demonstrates core mobile development concepts with real-time data handling using Firebase services.

Restaurant Website - Hotel-Style Web Page

- Designed and developed a fictional restaurant website using HTML, CSS, and JavaScript. The site features a modern user interface and is fully responsive for mobile and desktop screens. Focused on applying front-end development concepts in a real-world context.
